

FOR IMMEDIATE RELEASE

Array Networks Recognized in CRN's 2018 Network Connectivity Partner Program Guide

Milpitas, CA, July 17, 2018 – [Array Networks Inc.](#), the network functions platform company, announced today that [CRN](#), a brand of [The Channel Company](#), has recognized Array in its 2018 Network Connectivity Partner Program Guide. This annual guide highlights service providers, infrastructure providers and master agents whose telecom, cloud and connectivity offerings help partners navigate and succeed in the age of IT-telecom convergence.

"The vendors featured in our 2018 Network Connectivity Partner Program Guide represent the industry's leading telecom, cloud and connectivity portfolios that enable solution providers to grow and thrive," said Bob Skelley, CEO of The Channel Company. "These industry innovators provide partners with the critical connectivity services needed to get their customers to the cloud."

As the leading provider of hyperconverged platforms for networking and security, Array Networks allows IT organizations to migrate from dedicated hardware appliances to software-centric virtual appliances without sacrificing performance and without undue cost and complexity. Array's purpose-built platforms combine the agility and cost-efficiency of virtualization with the performance and simplicity of dedicated appliances to bring agility at scale to the data center network services layer.

"Through our network functions platform, channel partners can address some of the most pressing concerns of both enterprises and managed service providers," said Paul Andersen, vice president of sales and marketing at Array Networks. "For enterprises, the platform gives network and security teams a fast and convenient path to become cloud-relevant. For MSPs, the platform ensures enterprise-class SLAs for guaranteed performance and full isolation, providing a great opportunity to ramp up recurring revenue."

The Network Connectivity Partner Program Guide will be featured in the August 2018 issue of CRN and online at www.crn.com/connectivity-ppg.
